

***Issue covered in this manual:***

- *I cannot see an option to add GDPR and hotel regulations to my Booking Engine.*

**Table of contents:**

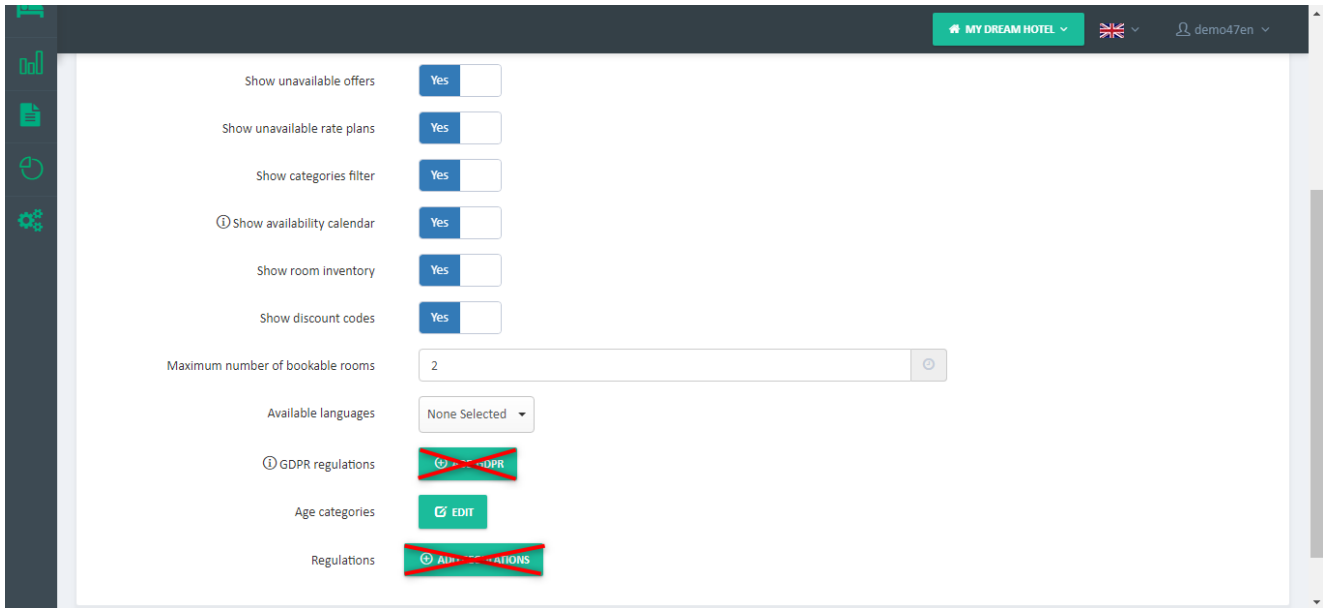

**1. Unable to add GDPR and hotel regulations .....2**

## 1. Unable to add GDPR and hotel regulations

### Question:

I cannot see an option to add GDPR and hotel regulations to my Booking Engine.

### Solution:

To make the "Add GDPR" and "Add regulations" options appear in the web panel, please head to **Configuration > Online reservation > Settings (new)** and select which languages shall be used in the KWHotel Booking Engine.

Having done that, please save the changes and restart the web panel – new options will appear in the "Settings (new)" section.
